Navagrahas (9) planets named as Ravi, Chandra, Kuja, Budha, Guru, Sukra, Sani, Rahu and Ketu are coinciding with different astrological aspects of the days, weeks and months. The influence of each planet is due to the constant movements of the planet and there by passing us the good and bad effects of their movements. Performing this Navagraha Pooja will help the people to have a smooth and happy life overcoming all their obstacles, by the Divine Grace of Sri Saibaba and the Navagrahas.

The star constellation in which moon is placed at the time of ones birth is called Janma Nakshatra. Performing a Nakshatra Shanti pooja improves the all round effects and removes whatever doshas that are present.
